This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. This statement with the receipts were offered to Mr. Dallas who told me he could not receive them unless they were accompany'd with the muster roll from the commanding officer, which I informed him I had already demanded, but was put off, and I may truly say that I have demanded them of him every three months since. I believe Mr. Dallas wrote likewise to him on the occasion, as I wish'd him so to do, for I knew of no way to compel him to a settlement without the assistance of Mr. Dallas as I considered myself acting under him as Paymaster General to the Troops of this State on the Receipt of your first Letter I took Majer John McElvey with me to him, I shewed him your Letter reminded him of his being the cause of it & insisted on his immediately making out the Muster and Bounty Rolls or I should be oblig'd to expose him after a short Pause he requested twelve Days the last I heard from him on the subject was that he had lost his Papers and could not comply. He said he paid considerable sums of money for Provisions for the Troops, which I believe to be the case, for they were ordered to rendevous at Newtown and

isions made for them. for which they look'd up to him
manding officer, and I have Reason to believe if he
t supply'd them, they would have returned to their
as some of them did, even after receiving the bounty
and never returned again. Between the time of my
on Col. Hanna & hearing last from him I had the mis-
of have one of my Legs badly broken and a severe
the Gout in the same foot & Leg which has crippled
such a manner that I have little Expedition of getting
Feet again this Winter or of ever being able to walk
s heretofore. I should not have given you the Trouble
ing a second time as I intended sitting out for Lan-

y get the accounts to your office with any certainty.
